HIGH FUNCTION _ MANY FEATURE'S PASSWORD MANAGER

Dashlane Review

Dashlane stands out among its excellent competition thanks to its many features, great interface and friendly pricing. Though nothing is perfect, it comes pretty damn close. Check out our full Dashlane review to see why we rank it number one.

Dashlane sits among the [best password managers](#) around, stuffed full of features that other options can't contend with. More than that, though, it provides a unique security structure that keeps your account safe. In this updated Dashlane review, we're going to look at the latest version to see if it's still worth the price.

If you're unaware, Dashlane raised its rates from \$40 per year to \$60 per year in 2018, following the launch of version six. This price increase came with a handful of new features, including a VPN and dark web monitoring. During this review, we're going to look at the new price and features, as well as check up on security, usability and support.

Although Dashlane is more expensive than other password managers, it's much more robust. The added features are more than worth an extra couple of dollars per month. Thankfully, if you can't pay, Dashlane also has a [generous free](#) plan, so there's no reason not to try it out.

DASHLANE – PRO's & CON's

- **PROs**

- PC Based software app – Provides Privacy and Security
- FREE & Fee Based versions
- Requires your MASTER PASSWORD to activate & view your each web access site PW
- Allows User editing – Helpful for CUSTOM NAMES
 - Easy to edit existing app icons
- Provides many ICONS for quick finding – ie, Amazon, Google, Fidelity, Walgreens
 - All apps are ALPHA Sorted automatically (in a PW encrypted Vault)
- MUST OPEN WITH A PASSWORD TO ACTIVATE at START UP or AFTER CLOSING
- Reasonable learning curve
- Few usage issues
- Works well for about + 90% of apps selected
 - Some sites have security measures to prevent auto log-in
 - Examples are banks & financial institutions (constantly changing)
- Allows for Web “Form Fill” info storage (name, address, credit card, web purchase receipts)

- **CONS**

- *Learning Curve*
- Some Applications may not accept auto log-in or create difficulty to work easily
 - How to determine “what’s wrong” – “why won’t it work?”
- Dashlane **USER Support** (3 options) - **EMAIL** / - **WEBSITE Q&A** / **CHAT** (online) – M to F / NO Phone Support
