Install and manage extensions - Chrome Web Store Help

3-4 minutes

You can customize Chrome on your desktop by adding extensions from the Chrome Web Store.

Install an extension

Important: You can't add extensions when you browse in Incognito mode or as a guest.

1. Open the [Chrome Web Store](#).
2. Find and select the extension you want.
3. Click **Add to Chrome**.
4. Some extensions will let you know if they need certain permissions or data. To approve, click **Add extension**.
 - **Important:** Make sure you only approve extensions that you trust.

To use the extension, click the icon to the right of the address bar.

If you're using a computer through your work or school, your organization might block some extensions.

Manage your extensions

1. On your computer, open Chrome.
2. At the top right, click More  **More tools**  **Extensions**.
3. Make your changes:
 - **Turn on/off:** Turn the extension on or off.
 - **Allow incognito:** On the extension, click **Details**. Turn on **Allow in incognito**.
 - **Fix corruptions:** Find a corrupted extension and click **Repair**. Confirm by clicking **Repair extension**.
 - **Allow site access:** On the extension, click **Details**. Next to "Allow this extension to read and change all your data on websites you visit," change the extension's site access to **On click**, **On specific sites**, or **On all sites**.

Let extensions read and change site data

Some extensions need permission to read and change site data. You can change your extensions' permissions anytime.

1. On your computer, open Chrome .
2. At the top right, click Extensions .
3. Click More  > point to "This can read and change site data."
4. Decide which permission to give the extension:
 - **When you click the extension:** This setting only allows the extension to access the current site in the open tab or window when you click the extension. If you close the tab or window, you'll have to click the extension to turn it on again.
 - **On [current site]:** Allow the extension to automatically read and change data on the current site.
 - **On all sites:** Allow the extension to automatically read and change data on all sites.

Add or remove access to a specific site

1. On your computer, open Chrome.
2. At the top right, click More  > **More tools** > **Extensions**.
3. On the extension, click **Details**.
4. Under "Permissions," add or remove a site:

Uninstall an extension

To the right of your address bar, look for the extension's icon. Right-click the icon and select **Remove from Chrome**.

If you don't see the extension's icon:

1. On your computer, open Chrome.
2. At the top right, click More  > **More tools** > **Extensions**.
3. On to the extension you want to remove, click **Remove**.
4. Confirm by clicking **Remove**.
