

## Microsoft captures data from your PC

Windows 10 will send data to Microsoft if that feature is enabled in your PC settings. To see this feature in operation you can monitor it using Task Manager.

To launch Task Manager hold down (at the same time) the (Ctrl) (Alt) and (Delete) keys. Click or tap “Task Manager”.

This window will appear:

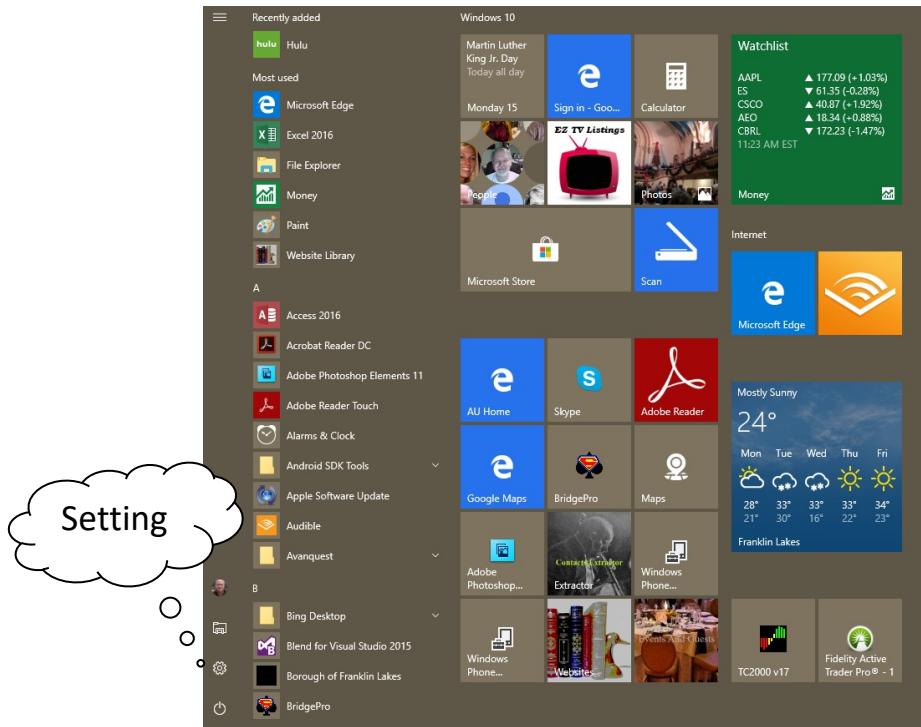

Name	Status	13% CPU	52% Memory	100% Disk	0% Network
> Norton Security		6.6%	41.1 MB	1.3 MB/s	0 Mbps
Microsoft Compatibility Telemetry		1.6%	17.2 MB	0.1 MB/s	0 Mbps
> Microsoft Skype (3)		1.1%	116.9 MB	0.1 MB/s	0 Mbps
WMI Provider Host		1.1%	6.4 MB	0 MB/s	0 Mbps
Task Manager		0.8%	22.9 MB	0 MB/s	0 Mbps
> Microsoft Windows Search Indexer		0.5%	15.9 MB	0 MB/s	0 Mbps
> Runtime Broker		0.4%	4.5 MB	0.1 MB/s	0 Mbps
> Service Host: Windows Management Instrumentation		0.4%	7.5 MB	0 MB/s	0 Mbps
> Microsoft Store (2)		0.3%	5.9 MB	0.1 MB/s	0 Mbps
> Service Host: Remote Procedure Call (2)		0.3%	7.6 MB	0 MB/s	0 Mbps
> Service Host: SysMain		0.1%	70.4 MB	0.3 MB/s	0 Mbps
> Service Host: Diagnostic Policy Service		0.1%	4.9 MB	0 MB/s	0 Mbps
System interrupts		0.1%	0 MB	0 MB/s	0 Mbps
> Microsoft Outlook Communications		0%	4.0 MB	0.1 MB/s	0 Mbps

Note I clicked on the column CPU. The task “Microsoft Compatibility Telemetry” under the name column is the task sending data to microsoft.

This task can be turned on or off in the PC settings app.

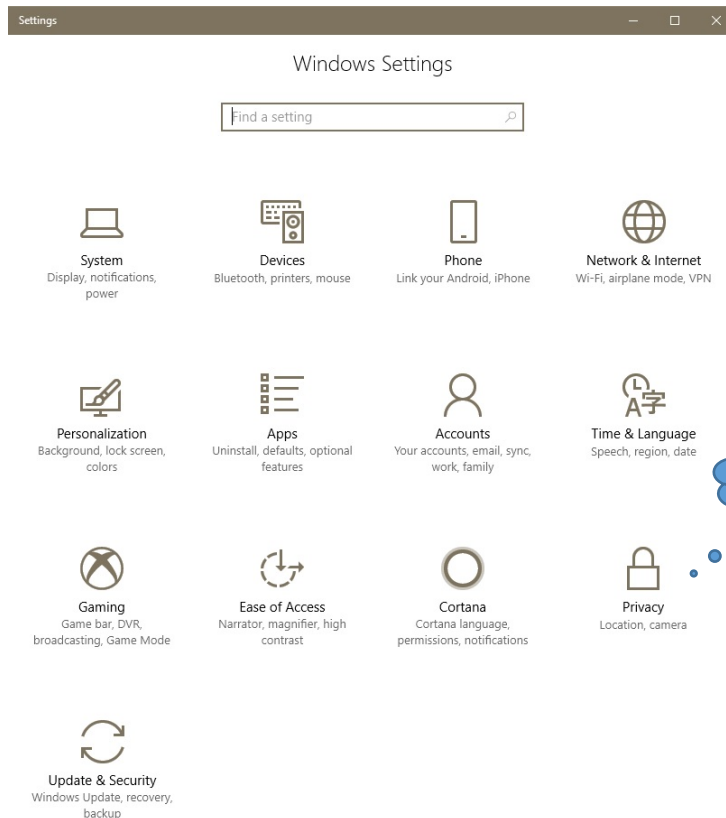

On the start screen

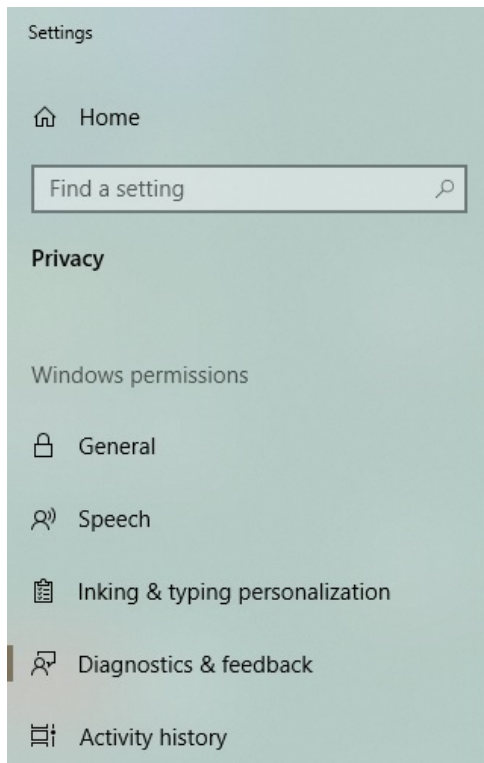

Click on the cog wheel

Then click Privacy

Click on Diagnostics & Feedback

## Diagnostics & feedback

### Diagnostic data

Choose how much diagnostic data you want to send to Microsoft. Diagnostic data is used to help keep Windows secure and up to date, troubleshoot problems, and make product improvements. Regardless of which option you select, your device will be equally secure and will operate normally. [Get more info about these settings](#)

- Basic: Send only info about your device, its settings and capabilities, and whether it is performing properly.
- Full: Send all Basic diagnostic data, along with info about websites you browse and how you use apps and features, plus additional info about device health, device activity, and enhanced error reporting.

Use the radio button to either Basic or Full.

To see the change in Task Manager restart your PC first then open task manager.
